

SolarTech Power Solutions

60kw lithium battery energy storage

Overview

This high-performance system integrates a powerful 60kWh lithium battery pack with the Sol-Ark 60K-3P-480V inverter, delivering up to 60kW of continuous AC power to meet the substantial energy needs of modern businesses.

This high-performance system integrates a powerful 60kWh lithium battery pack with the Sol-Ark 60K-3P-480V inverter, delivering up to 60kW of continuous AC power to meet the substantial energy needs of modern businesses.

The Sol-Ark® L3 Series Lithium™ battery energy storage system (BESS) offers scalability, reliability, and energy resilience essential for modern commercial and industrial operations. It's a future-proof battery technology solution for today and tomorrow.

A compact small-node Battery Energy Storage system (BESS), ideal for events, construction, and contractors - Our 60 kVA battery solutions help you reduce emissions and noise while allowing you to have more flexibility and control over your energy use.

Utilizing lithium ion high voltage battery technology, the system can be deployed as a 20kWh battery, 40kWh system, or scaled up to a 60kWh battery configuration, providing versatile energy storage for offices, factories, telecom sites, and microgrids.

We have solar battery packs available that provide power storage from 1kWh to more than 100 kWh. Learn the price of 60kWh backup battery power storage for the lowest cost 60kWh batteries.
