## Overview

---

Many perpetually sunny African nations like Egypt, Libya, Algeria, Niger, Sudan, South Africa, Botswana and Namibia for instance could rely on developing their tremendous solar resources on a large scale thanks to the immense surface of their territory and at reduced prices. Overview Africa is often considered and referred as the "Sun continent" or the continent where the Sun's influence is the greatest. According to the "World Sunshine Map", receives many more hours of bright sunshine d.

The whole continent has a long duration of sunshine, and excluding the large areas of tropical rainforests (the and much of the ), as the desert and savannah regions of Africa repre.
