Albania Solar System

Overview

How many solar projects are in Albania?

The Albanian government has received requests from four companies looking to develop four separate solar projects located across the country. Albania's Ministry of Infrastructure and Energy has received expressions of interest from four companies looking to construct four solar projects with a cumulative capacity totaling 235 MW.

Is there solar energy in Albania?

There is a large potential of solar energy in Albania. Solar radiation is 1.7-2 times higher than in Germany. About 99.5% of energy in Albania is produced by hydropower plants (in summer there is not such rainfall). Many small power plants can not operate during the summer months, as water is needed for agriculture.

How much does solar cost in Albania?

Albania ran a 300 MW solar tender last year. The Ministry of Infrastructure and Energy shortlisted nine bidders with an average price of €0.0513 (\$0.054)/kWh offered across 283.9 MW of capacity allocated in July. The country had deployed 163 MW of solar by the end of 2023, according to figures from the International Renewable Energy Agency (IRENA).

Will a 100 MW solar power plant be built in Albania?

A company called Euron Solar-PV has submitted an application to the Albanian Ministry of Infrastructure and Energy for the construction of a 100 MW Solar power plant in the villages of Fushe and Povelce, near Fier City. The project is currently in its initial stages and the public has two weeks to submit comments and objections.

Can Albania become a leader in solar energy?

With proper investment and support, Albania can become a leader in solar

energy in the region, creating a positive impact on the environment and the economy. Albania has been facing an energy crisis for several years due to its heavy reliance on hydropower, which accounts for over 90% of its electricity production.

How to implement photovoltaic technology in Albania?

Government support and policy development - One of the key strategies for successful implementation of photovoltaic technology in Albania is government support and policy development. The Albanian government can play a crucial role in 5 An on-grid system is designed to first allow solar energy to be consumed by the customer.
