

## SolarTech Power Solutions

# Angola Solar Tracking System

## Overview

---

How many MW of solar power will be installed in Angola?

The projects will be installed in the Moxico, Lunda Norte, Lunda Sul, Bie, and Malanje provinces, adding 296 MW of solar capacity and 719 MWh of battery energy storage system to the Angolan grid. The facilities will provide electricity to power one million consumers. Clean energy firm MCA Group has been tasked with the construction of the projects.

What is the Angola solar project?

The Angola Solar Project creates new opportunities for Angolan communities that will no longer be forced to rely on and pay for gasoline or diesel generators. Each one of the five projects that comprises the Angola Solar Project will supply the needs of 500,000 Angolan homes, mainly in rural areas.

How can solar energy be harnessed in Angola?

The most appropriate technology to harness the solar resource in Angola is the production of electricity through photovoltaic systems. This technology currently presents the fastest installation time (less than 1 year) and lowest maintenance costs.

Will Angola get 60% electricity by 2025?

Angola has set a target of 60% access to electricity by 2025 under the strategic plan 'Visao 2025,' of which solar is poised to play a central role. Supporting electrification as well as diversification, solar projects are being rolled out by the government alongside international partners and project developers.

How will Angola's new solar power plant affect the environment?

The solar facility will mitigate the emissions of 224,000 tons of carbon dioxide while providing employment to 600 people. Developed in phases, the facility

will be operational for 20 years and falls in line with efforts by Angola to generate 500 MW of renewable energy capacity by 2025.

How much money does Standard Chartered invest in solar Angola?

Standard Chartered Commits \$1.44B Towards Solar Angola's Ministry of Finance secured \$1.44 billion in financing from multinational bank Standard Chartered in July 2023 to fund the deployment of 48 solar PV systems nationwide.
