Base station lead-acid battery replacement

Overview

What is the best battery to replace lead acid batteries?

With better performance, LiFePO4 is the most promising battery technology to replace Lead Acid Batteries. AntBatt lithium ion Phosphate (LiFePO4) Battery pack is designed as lighter-weight, longer-lasting replacement for lead acid batteries.

Do I need to replace my base station's batteries?

If you're not certain which system you have, see the Which Version of the SimpliSafe® System Do I Have article. You will likely never need to replace your Base Station's batteries as they are rechargeable and meant to last. The Base Station takes four (4) 1.2V, 1300mAh nickel-metal hydride (NiMH) rechargeable batteries.

How many batteries does the base station take?

The Base Station takes four (4) 1.2V, 1300mAh nickel-metal hydride (NiMH) rechargeable batteries. Regular alkaline batteries should never be inserted into the Base Station, as they may damage the device. Once you have acquired the necessary NiMH rechargeable batteries, you can follow the steps below to replace them:.

Can you put alkaline batteries in a base station?

NEVER insert regular alkaline batteries into the Base Station as they may damage the device. Plug your Base Station back into power. Was this helpful?

Does your Keypad look like the one pictured to the left?

.

Why is my lead acid battery charging directly from my alternator?

If your lead acid battery was charging directly from your car's alternator, you

need to make some changes. Lithium batteries have a low internal resistance. It will demand as much current from the alternator as it can handle, leading to overheating or even burning out of your alternator. Victron did a great video about this:.

How do I replace a NiMH rechargeable battery?

Once you have acquired the necessary NiMH rechargeable batteries, you can follow the steps below to replace them: NEVER insert regular alkaline batteries into the Base Station as they may damage the device. Plug your Base Station back into power. Was this helpful?
