Battery cabinet with workstation

Overview

What is a battery-powered computer cart & workstation?

Our battery-powered computer carts and workstations are designed to provide mobility and power during your workday. These mobile workstations feature a portable rechargeable battery that can keep your computer running for up to 8 hours. Made with steel, our durable carts feature lockable wheels and shelves for superior organization.

Do mobile workstation carts need lockable cabinets?

Medications, equipment and confidential info need protection. Lockable cabinets on mobile workstation carts allow secure storage right where it's required. The cart itself can also be locked down to prevent wandering off or theft. Safety and asset security - check. Here's how you make the most of your mobile computer workstation:.

What is a battery powered mobile workstation?

DTG's highly-configurable battery powered mobile workstations help optimize every aspect of your warehouse operations - from receiving and inventory management, to picking, staging, and shipping.

Are mobile workstation carts safe?

Lockable cabinets on mobile workstation carts allow secure storage right where it's required. The cart itself can also be locked down to prevent wandering off or theft. Safety and asset security - check. Here's how you make the most of your mobile computer workstation: Train employees on ergonomic cart height adjustment and safe movement.

What is a battery powered mobile Workcenter?

These battery powered mobile workcenters are great for warehouses and retail. CPU carts can be configured to hold computers, monitors, keyboards, printers, bar code scanners and more.

What is a mobile computer cart with battery?

A mobile computer cart with battery brings even more versatility to a work area. Reliable add-on power like LiFeKinnex™ keeps devices charged without having to rely on an electrical outlet. This innovative LiFe battery system is designed to support hot swap or on-cart charging for a laptop cart or full computer cart.
