

SolarTech Power Solutions

Belize solar off-grid energy storage manufacturer

Overview

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

What is off-grid solar?

It provides solar energy for your daytime needs and allows surplus energy to flow to the integrated batteries, providing peace of mind at night or during power outages. Off-grid Solar empowers you with self-sufficiency and independence. Discover the perfect solution for your remote cabin, communication site or island retreat.

Should I use a grid-tie or off-grid Solar System?

A grid-tie solar system with battery back-up is the best solution if you are currently connected to the grid and want a solar back-up for grid outages. An off-grid solar system is the best solution if you do not have access to the grid and don't want to depend on a generator only. Can I still utilize my solar energy during the night?

.

Will grid-connected solar systems be regulated in the future?

No. Efforts are being made by the Public Utilities Commission and the Ministry of Public Utilities Energy and Logistics to regulate grid-connected solar systems in the future.
