

## SolarTech Power Solutions

# Cook Islands outdoor power system installation

## Overview

---

What is the future of power in the Cook Islands?

Now with full-time power, the future has taken a new shape for Cook Islands' residents thanks to government renewable energy – leading to an improved quality of life, and increased economy activity. The improved livelihood in the communities that now have the benefit of reliable, 24hour power supply is immeasurable.

How did we help the Cook Islands Government achieve its aim?

We helped the government realise its aim. To support the Cook Islands Government, the New Zealand Government – through the Ministry of Foreign Affairs and Trade, installed mini-grid photo-voltaic power systems in a number of villages on six remote islands. We helped manage this logistically enjoyable project.

Who is involved in the development process in the Cook Islands?

There are three Government organisations involved in the development process: the National Environment Service, Ministry of Health and Infrastructure Cook Islands. You will also need to contact utility providers for connections to power, water and telecommunications.

Do I need a building permit in Cook Islands?

If you are constructing a building or a structure, you must get a building permit from Infrastructure Cook Islands prior construction. ICI. The Building Controller will re-view the plans, and undertake a site visit. The Building Controller will issue a building permit if the application conforms with the building code.

How do I start a development project in Cook Islands?

Submit proposal to the Chief Surveyor for certification. Check if you need formal approval for buildings or other development before you start work on

your land. There are three Government organisations involved in the development process: the National Environment Service, Ministry of Health and Infrastructure Cook Islands.
