Cost of installing solar panels on wasteland

Overview

Thinking about installing solar panels in New York?

Find everything you need to know about incentives, cost, top companies, and more.

Thinking about installing solar panels in New York?

Find everything you need to know about incentives, cost, top companies, and more.

Thinking about going solar?

In New York, you'll need a 12.28 kW system to match the average electric bill. It'll cost you around \$23,874 after the federal tax credit. Some states, towns, and utility companies offer incentives that can help lower the cost of solar. Compare multiple offers and save.

Within 25 years New York will find itself trying to manage the disposal of five million or more waste solar panels every year. That's nearly 100,000 per week forever. New York currently has no plan for dealing with this massive amount of "green" waste, but the cost for proper disposal could top.

Average solar panel installation costs range from \$9,838 to \$28,109 in New York. How much you pay depends on the size of your system, what incentives you're eligible for, your home's sunlight exposure and other factors. Assuming an upfront purchase, it takes about 8.12 years to break even (when.

The cost of solar panels in New York reflects this sunny opportunity, ranging between \$13,300 and \$21,000 for the average system. While it may cost more to install solar panel systems in New York than other states, local tax incentives, financing programs and unique net metering options can balance.

Each year, the U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U.S. solar photovoltaic (PV) systems to develop cost benchmarks. These

benchmarks help measure progress toward goals for reducing solar electricity costs.

As of 2025, the average cost of solar panels in New York is \$3.30 per watt, making a typical 6.9 kilowatt (kW) solar system \$16,632 after claiming the 30% federal solar tax credit now available. This is higher than the average price of residential solar power systems across the United States, which.
