Demand for inverter equipment for Kosovo communication base stations

Overview

What is Kosovo's Electricity Supply Chain?

Kosovo's electricity supply chain (ESC) includes both public and private firms. Electricity production is dominated by a publicly owned enterprise (POE), Kosovo Energy Corporation (KEK), Sources: Kosovo authorities and IMF staff calculations. Note: KOS A and KOS B refer to state-owned coal-based generation plants ("Kosova A and B").

Who owns electricity distribution services in Kosovo?

Electricity Distribution Services in Kosovo (KEDS, a privately-owned firm) oversees distribution. The same firm owns KESCO (Kosovo Electricity Supply Hours Sources: Kosovo authorities and IMF staff calculations. 5. More than 20 percent of Kosovo's electricity consumption is either not billed or billed but not collected.

What is a 400 kV transmission network in Kosovo?

This configuration of 400 kV network provides Kosovo's transmission network stability and sustainability in operation, due to a high flexibility of shifting power flows in the event of opening one of the four above mentioned rings. Figura 5-14. Single pole scheme of modified substation SS Prizren 2, 220/110 kV to SS Nashec, 400/220/110 kV.

Why is the Kosovo transmission system project necessary?

Based on all the facts mentioned, and KOSTT's fundamental and essential duty of secure and reliable operation of the Kosovo Transmission System in real time, the project is necessary at the time for which it is planned.

Will Kosovo have a transmission network in the next 10 years?

The capacity of the interconnection lines of the transmission network in Kosovo will be much higher than the needs for imports, or opportunities for exports of electricity that our country will have in the next 10 years and

considering the volume of significant transit flows (in our network) for the region needs.

Who regulates energy in Kosovo?

4 The ERO is an independent agency that regulates electricity, district heating, and gas markets in Kosovo. It was established in 2004, after the promulgation of the Laws on Energy, on Electricity, and on the Energy Regulator. The ERO helps to ensure that Kosovo's regulatory framework is in line with the EU 'acquis' on energy.
