

## SolarTech Power Solutions

# Energy storage battery DC charging manufacturer

## Overview

---

What is a battery energy storage system?

Our Battery Energy Storage System (BESS) combines renewable energy, storage, and charging to power EVs and industrial operations, while also tackling the unique challenges of electrifying heavy-duty equipment like sweepers, forklifts, and excavators.

Why should you use a DC fast charger?

Our DC fast chargers, powered by microgrid-scale energy storage, is able to provide travelers with rapid and resilient charging. By enhancing your services, reducing operating costs, and providing your site with a resilient grid. By integrating these components, our solution supports robust and sustainable EV charging infrastructure.

What are Battery-integrated mobile DC chargers (poweronthego)?

The battery-integrated mobile DC chargers (PowerOnTheGo) deliver high-power charging in off-grid locations—no fixed power supply needed. Electrification means a more efficient and environmentally friendly future. It has greatly promoted the transformation of industry, transportation, communication and so on.

What is SIGEN EV DC charging module?

With Sigen EV DC Charging Module, you can keep your home powered during outages, generate income by sharing energy with the grid, and charge your car using solar power. Vehicle-to-home (V2H): Utilize EVs for Enhanced Home Backup Power, Coupled with Sigen Battery for even more than 100kWh Storage Capacity.

Why is Panasonic a leading energy storage company?

Thanks to a wide and varied portfolio of solutions, Panasonic has positioned itself as one of the leaders in the energy storage vicinity. Panasonic is one of

the industry's top names due to its advances in innovative battery technology alongside strategic partnerships and extensive experience in manufacturing high-quality products.

Why should your business use a battery energy storage system?

Provide your customers with the green amenities they need and future-proof your business all while generating savings on your utility bill. Utilize our battery energy storage system for high power output applications, improved resilience, and energy arbitrage. Supercharge your electric fleet with our industrial charging applications.
