# Enterprise self-built energy storage projects

## Overview

---

Will energy storage systems help New York build a self-sustaining industry?

Over \$350 million in New York State incentives have been authorized to accelerate the adoption of energy storage systems in effort of building a self-sustaining industry. Energy storage systems will serve many critical roles to enable New York's clean energy future.

What is energy storage system?

ENERGY STORAGE SYSTEM. One or more devices, assembled together, capable of storing energy in order to supply electrical energy at a future time, not to include a stand-alone 12- volt car battery or an electric motor vehicle. 4.2 2020 Existing Building Code of New York State Section 306 (Energy Storage Systems) SECTION 306 ENERGY STORAGE SYSTEMS.

Are energy storage systems combustible?

Enclosures of energy storage systems shall be of noncombustible construction. 1206.10.6 Repairs. Repairs of energy storage systems shall only be done by qualified personnel. Repairs with other than identical parts shall be considered a retrofit and comply with Section 1206.10.7.

How long does a mobile energy storage system last?

Mobile energy storage system deployments that provide power for durations longer than 30 days shall comply with Section 1206.17.6. 2. Mobile energy storage system deployments shall not exceed 180 days unless additional operating permits are obtained. 1206.17.7.2 Restricted locations.

Can a motor vehicle impact a energy storage system?

Where energy storage systems are subject to impact by a motor vehicle, including fork lifts, vehicle impact protection shall be provided in accordance with Section 312 of this code. 1206.11.6 Combustible storage. Combustible materials shall not be stored in energy storage system rooms, areas, or walk-

in energy storage system units.

Where should energy storage systems be located?

Energy storage systems and associated equipment shall be located from the edge of the roof a distance equal to at least the height of the system, equipment, or component but not less than 5 feet (1.5 m). 4.
