

SolarTech Power Solutions

Equatorial Guinea buildings need solar systems

CE UN38.3 

Overview

Aptech Africa installs 11 off-grid solar systems in Equatorial Guinea, bringing reliable, clean energy to remote villages and fostering community development.

Aptech Africa installs 11 off-grid solar systems in Equatorial Guinea, bringing reliable, clean energy to remote villages and fostering community development.

Aptech Africa installed solar systems in 11 villages, featuring capacities of 5kWp, 15kWp, and 20kWp and battery storage ranging from 12kWh to 36kWh. These systems were deployed off-grid in challenging terrains and equipped with Ulica solar modules, Growatt inverters, and Ritar lead-acid batteries.

In a ground breaking initiative, Aptech Africa has embarked on a mission to bring sustainable energy solutions to remote communities in Equatorial Guinea. Through the installation of 11 solar systems, Aptech Africa is lighting up lives, fostering development, and paving the way for a brighter.

orage ranging from 12kWh to 36kWh. Among these, one system is hybrid, while the rest are standalone systems coexisting wit generators and icrogrid system on Annobon Island. The microgrid will provide electricity for the island''s 5,000 residents using GE''s battery-based energy storage system.

In a groundbreaking initiative, Aptech Africa has embarked on a mission to bring sustainable energy solutions to remote communities in Equatorial Guinea. Through the installation of 11 solar systems, Aptech Africa is lighting up lives, fostering development, and paving the way for a brighter.

Despite logistics challenges, Aptech Africa has installed 11 solar systems in Equatorial Guinea featuring capacities of 5kWp, 15kWp, and 20kWp, coupled with battery energy storage ranging from 12kWh to 36kWh. Among these, one system is hybrid, while the rest are standalone systems coexisting with.

Aptech Africa pioneers sustainable development by installing 11 solar systems in remote Equatorial Guinea villages, enhancing education, healthcare, and

community empowerment through reliable, clean energy sources. Specifically for Equatorial Guinea, country factsheet has been elaborated, including.
