Gabon solar power station power generation sales

Overview

The Ayémé Solar Power Station is a proposed 120 megawatts plant in Gabon. The power station is under development by Solen, an (IPP). The solar farm will be developed in two phases of 60 megawatts each. The energy generated at this power station is expected to be sold to the Energy and Water Company of Gabon (Société d'Énergie et d'Eau du Gabon) (SEEG), for distribution in , the capital city of the county and its surro.

How is the Gabon power market segmented?

The Gabon Power Market is segmented by Power Generation (Hydropower, Natural Gas, and Others) and Transmission and Distribution. The report offers the market size and forecasts for electricity generation capacity (MW). Need a report that reflects how COVID-19 has impacted this market and its growth?

Will Gabon power market grow by 2027?

Gabon Power Market is poised to grow at a CAGR of 3.4% by 2027. The increase in the capacity of renewables to decrease the carbon footprint is likely to create an opportunity for renewable energy companies.

Will foreign investment drive the growth of the Gabon power market?

Foreign investment is expected to drive the growth of the Gabon power market over the forecast period. The Gabon power market is fragmented. The key players in this market (in no particular order) are Eranove SA, Genser Energy Holdings Inc., China Gezhouba Group Company Limited, Engie SA, TBEA Co. Ltd, and others.

What drives Gabon's power sector?

The country's power sector is expected to be driven by the investment of foreign players for the construction of new power plants during the forecast period. However, Gabon also has a large share of electricity being generated through fossil fuels.

How much electricity does Gabon use?

Hydroelectricity is one of the major sources of electricity in Gabon. In 2021, the country's installed hydropower capacity was 331 MW. However, the country still relies on the import of electricity. In 2021, it imported 550 GWh of electricity from foreign grid lines to fulfill its electricity requirement.

How many MW will Wärtsilä & Gabon power plant have?

The plant will be built over an area of 250 hectares of land and will have a capacity of 120 MW. In September 2021, Wärtsilä and Gabon Power Company (GPC) signed a concession agreement with the Government of Gabon for the development, supply, construction, operation, and maintenance of a 120 MW gas power plant.
