

SolarTech Power Solutions

Germany non-standard solar panel components shipped

Overview

Does sonnenstromfabrik make solar panels?

Sonnenstromfabrik produces both its own products under its own brand name but also third-party modules, which it makes on behalf of other solar manufacturers. Our product range comprises framed and frameless glass/glass modules, framed standard modules of glass-foil design and special modules such as off-grid modules and roof-integrated modules.

Does Germany have solar power?

Most solar power in Germany exclusively consists of photovoltaics (PV) systems only. Germany has only a little interest in concentrated solar power (CSP) for it does not use photovoltaics and this solar technology requires much higher solar insolation as compared to the PV system.

Is Germany ready for a second wave of solar power expansion?

Moreover, they're expecting for the second wave of solar power expansion, which will soon bring success and progress for the solar technology's full systemic integration. For several years, Germany has been considered as the world's top PV installer among other countries.

Is there a CSP plant in Germany?

However, there is still an experimental CSP-plant with 1.5 MW capacity which is being used solely for on-site engineering purposes only rather than for commercial electricity/power generation. This concentrated solar power is called the "Jülich Solar Tower" that is owned by the German Aerospace Center.

What are solar modules made of?

Most solar modules are currently produced from crystalline silicon (c-Si) solar cells that are made of multi-crystalline and monocrystalline silicon. In 2013, crystalline silicon accounted for more than 90% of worldwide PV production.

What makes solarpan a great company?

Solarpan, an esteemed family business with an international footprint, is guided by a set of core values and standards that form the bedrock of our interactions with customers, employees, and partners. These principles are instrumental in steering us towards the achievement of our corporate goals.
