Government subsidies for solar power systems

Overview

What is a solar panel government subsidy?

A solar panel government subsidy is like a financial boost from the government to help you afford solar panels. These subsidies, which may include tax credits, rebates, or grants, aim to make renewable energy more accessible to homeowners and businesses.

Do you qualify for government subsidies for solar panel installation?

To qualify for government subsidies for solar panel installation, applicants must meet specific conditions: The solar panel system must be installed by a vendor registered under MNRE or the state's DISCOM-approved list. It should be a grid-connected rooftop solar panel system. Only domestic (residential) users are eligible for subsidy support.

What are solar subsidies & how do they work?

These subsidies, which may include tax credits, rebates, or grants, aim to make renewable energy more accessible to homeowners and businesses. By reducing the initial investment, they encourage widespread adoption of solar technology, promoting environmental sustainability and reducing reliance on fossil fuels.

What is a solar rebate or subsidy?

A rebate or subsidy will cover part or all of the upfront cost of buying solar or a battery. Rebate schemes operated by states, territories and local governments sometimes only apply to particular groups of people or types of housing, such as social housing, rental properties or apartments. Eligibility criteria may relate to:

How do I apply for a solar panel subsidy?

The applicant must not have availed solar subsidy previously on the same premises. Applying for a solar panel subsidy is now easier, thanks to online

platforms: Register with your state's electricity board. Submit details about your location, connection number, and capacity of the system. Select a registered vendor for installation.

What incentives are available to install solar panels in India?

Some Indian states offer additional solar panel installation incentives alongside central subsidies: Offers special incentives under MEDA (Maharashtra Energy Development Agency). Provides financial support for schools and panchayats. Known for the Surya Urja Rooftop Yojana. Up to 40% subsidy for 1-3 kW systems.
