

## SolarTech Power Solutions

# How big a container should I use for solar installation

### GRADE A BATTERY

LiFePO<sub>4</sub> battery will not burn when overcharged over discharged, overcurrent or short circuited and can withstand high temperatures without decomposition.

## Overview

---

A 20ft shipping container can typically accommodate 6 to 12 solar panels, depending on panel size and mounting configuration. With six to twelve 300W panels, you can expect around 1.8 kWp to 3.6 kWp of power.
