How to arrange a battery cabinet

Overview

How many batteries can a battery organizer fit?

With a clear lid, you can easily find the batteries you need and test them in the case with the included battery tester. The foam insert also ensures a snug fit for your batteries, so they won't shift while you're on the road, and there's a hand strap. This organizer can fit over 230 batteries, depending on the sizes you have.

Where should I keep my batteries?

Before discovering the best way to organize batteries, I used to store them in various places around the house. Some were in the junk drawer (organized in an office supply tray), others in a plastic shoebox, and some in the garage.

Should you put batteries in a junk drawer?

If the bottom of a junk drawer is where you store batteries, there's a much better—and safer—option out there. Battery organizers— like toolbox organizers specifically for batteries—have designated slots for different batteries, designed as hardshell carrying cases, drawer inserts, or for wall-mount installation.

Should you buy a battery organizer?

If you never store C, D, or 9-volt batteries, then this is the organizer for you. Batteries are well-protected thanks to the secure latches, splashproof material, and removable, pre-cut foam that does not deform over time. The transparent design also makes it convenient to view and manage your battery inventory.

What is a battery organizer?

Battery organizers— like toolbox organizers specifically for batteries—have designated slots for different batteries, designed as hardshell carrying cases, drawer inserts, or for wall-mount installation. They come in a range of sizes,

all the way up to models with a 200-battery capacity or more.

Where should a battery organizer be stored?

In terms of where to store or install the battery organizer, there are wall-mounted options and organizer that are drawer inserts. There are also hard cases ideal for keeping in the car or garage, which should be waterproof and able to withstand hitting the ground without damaging the goods.
