

SolarTech Power Solutions

Huawei Canadian polysilicon solar panels

Overview

Who is Huawei solar PV?

The Huawei Solar PV Division was established in 2011 and focused strongly on Commercial and Utility Inverter Technology using a decentralized String Inverter concept.

How many string inverters does Huawei sell per year?

In 2015 the Huawei SUN2000 series of inverters became the most installed inverter series (by Gigawatt installed) in the World and in 2018 Huawei expect to sell approximately 27GW worth of String Inverters per Year which is about twice as much as its closest competitor.

Is Huawei a good company?

Huawei is a leading global ICT and network energy solutions provider, serves more than one-third of the world's population. Its solutions, products and services are used in over 170 countries.

How does Canadian Solar ensure a safe supply chain?

Canadian Solar closely examines our supply chains to ensure goods imported are not mined, produced or manufactured, wholly or in part, with prohibited forms of labor, i.e., slave, convict, indentured, forced or indentured child labor. Copyright © Canadian Solar. All rights reserved
