

SolarTech Power Solutions

Huawei Energy Storage Power Supply Capacity Unit

Overview

The UPS5000-H (200-1600kVA) is Huawei's high-density and high-efficiency modular UPS designed for medium- and large-sized data centers and critical power supply scenarios.

The UPS5000-H (200-1600kVA) is Huawei's high-density and high-efficiency modular UPS designed for medium- and large-sized data centers and critical power supply scenarios.

Huawei's FusionPower2.0 data center power supply and distribution solution is based on the 100 kW module, and achieves the " 1MW, 1 Rack " principle. 1 standard rack can support 1MW power principle with a footprint that is more than halved, facilitating improved data center utilization and increased revenue.
