Huawei Georgia Power Storage Vehicle

Overview

Will Huawei's patented solid-state battery push EV limits?

Huawei's patented solid-state battery promises 3,000 km range & 5-min charging, pushing EV limits — but real-world hurdles remain.

What is Huawei's big battery breakthrough?

Huawei's huge battery breakthrough! New solid state tech promises massive range and miniscule charging times Smartphone giant and EV investor Huawei has challenged CATL and BYD's supremacy by inventing a pioneering new battery that blends an incredible range of up to 3000km with a charging time of just five minutes.

Could Huawei's new battery technology make EVs go further?

Huawei has developed solid-state battery tech that could make EVs go further and charger faster. Cells have triple the energy-density of li-ion ones and could theoretically give an 1,800-mile range. Chinese patent application says the new battery pack could be fully recharged in only five minutes.

Will Huawei's solid-state battery chemistry change EV usability?

Like Toyota, VW, BMW, Stellantis and other big players in the tech and automotive space, Huawei has spent the last few years working on solid state batteries, which most experts agree will bring a step-change in EV usability. And this month Huawei filed a Chinese patent for solid-state battery chemistry that comes with some bold claims.

Why is Huawei pursuing solid-state battery development?

By pursuing solid-state battery development, Huawei joins a growing list of global automakers and tech companies such as BMW, Mercedes-Benz, Volkswagen, and BYD, all racing to unlock safer, lighter, and faster-charging batteries to transform the future of electric mobility.

Will Georgia Power offer more battery energy storage projects?

In that filing, Georgia Power signaled its intention to solicit bids for more storage- another 500 MW- in the near future. Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report.
