Huawei energy storage battery charging and discharging current

Overview

How to store a battery in a packing case?

A battery recharge label must be put on the battery packing case. The recharge label should contain the latest charge time and the next recharge time. Place batteries according to the signs on the packing case during storage. Do not put batteries upside down or sidelong.

What is a battery energy storage system?

Battery Energy Storage Systems (BESS) are essential components in modern energy infrastructure, particularly for integrating renewable energy sources and enhancing grid stability.

How do I charge my ESS battery?

Connect to the inverter on the app. Tap Monitor on the home screen, tap the ESS icon, and check that all battery expansion modules are online. Choose Maintenance > Battery maintenance > Forced charge/discharge, set Working Mode to Maintenance charge, and enable Maintenance charge.

How often should a warehouse keeper collect battery storage information?

The warehouse keeper shall collect battery storage information every month and periodically report the battery inventory information to the planning department. The batteries that have been stored for nearly 15 months (at -10°C to $+25^{\circ}\text{C}$), 9 months (at 25°C – 35°C), or 6 months (at 35°C – 55°C) shall be charged in a timely manner.
