

SolarTech Power Solutions

Huawei stacked energy storage pack battery

Overview

The LUNA2000 battery has a modular design with 5kWh battery modules, up to 3 battery modules can be stacked for each system to create a 5, 10 and 15kWh system. What is Huawei smart string energy storage system?

With Huawei Smart String Energy Storage System, you can power your life by green power storage and be astonished by its admirable performance. No matter nights, rainy days or unexpected blackouts off the grid, the solar power is always at your request as a real bank. The built-in optimizer independently manages each battery module.

How does the Huawei Luna battery pack work?

This technology allows optimization of the energy level of the battery pack. Huawei Luna consists of the Power Module, the electronic component and 5 kWh battery packs. The modular design allows to expand the storage capacity from 5 KWh up to 15 KWh with the possibility of stacking up to 3 battery packs (of 5 kWh each) for each system.

What is the storage system made by Huawei Luna 2000?

The storage system made by Huawei LUNA 2000 is available. The system can be modulated with lithium batteries from 5KWh to 15KWh. High-voltage lithium iron phosphate (LFP) batteries have a very stable and resistant chemical structure. This technology allows optimization of the energy level of the battery pack.

What is energy storage system products list?

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

What is the Huawei Luna smart string battery?

The Huawei Luna Smart String Battery offers a modular solution that can be

tailored to your needs. With 5 kWh, 10 kWh or 15 kWh, and the option of future expansion, the Luna battery is ideal for responding to changing needs. Combined with the optional PV Optimiser, you get a powerful system with high efficiency.

What is energy storage safety?

Energy storage safety weighs more than anything. With 4-layer protection from cell level to electrical level, structural level and emergency protection level, HUAWEI redefines energy storage system safety.
