Hungary solar power station with energy storage plant

Overview

Where is Hungary's largest battery energy storage system located?

From ESS News Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Százhalombatta, located close to Budapest. The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh.

Is Hungary's largest battery energy storage system a met investment?

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today. It is the latest example in a series of MET investments in BESS projects across Europe.

What is the largest solar power plant in Hungary?

The Mátra Solar Power Plant in Visonta was completed in 2015, and it spans 30 hectares (around 0.12 square miles). Its total capacity is 16 MW, allowing it to power 9,000 homes. Until 2019, it was the second-largest solar power project in Hungary.

How met group contributes to the energy transition in Hungary?

On site at the Dunamenti Power Station in Százhalombatta, MET already installed a 4 MW / 8 MWh demonstrator plant based on Tesla Megapack 2 batteries in 2022. With this latest BESS plant which went into operation today, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in Hungary.

How much power does met have in Hungary?

The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh. This project significantly expands MET Group's energy storage portfolio in Hungary. It joins a smaller 4 MW / 8 MWh demonstrator BESS, which utilizes Tesla Megapack 2 batteries and was installed at the same site in

2022.

Does Hungary have a solar energy program?

Hungary's advancements in its solar energy program are evident in how quickly the highest capacity solar power plants have been outdone by newer plants, as shown throughout the article. Hungary is currently experiencing rapid advances in solar power.
