Integrated outdoor base station price

Overview

Does CableFree offer a 5Ghz base station?

CableFree offers Band 46 5GHz LTE Base Station and Outdoor CPE devices for operation in Unlicensed 5GHz spectrum, enabling smaller operators and private customers to build LTE without requiring access to licensed spectrum. Band 46 covers 5150 - 5925MHz and uses TDD-LTE technology. Contact CableFree for details.

What is the TP-Link outdoor wireless base station?

The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users. Two external RP-SMA antenna interfaces allow the Outdoor Wireless Base Station to integrate seamlessly with TP-LINK's line of sector and dish antennas.

What is a Nova base station?

The Nova base station makes use of the current LTE transmission resources to reduce the operator's investment with low-cost, enhanced indoor or outdoor coverage. This solution can be used widely by telecom operators, broadband operators, and enterprises to promote the user experience in residential and commercial settings.
