

SolarTech Power Solutions

Iran s largest energy storage power station

Overview

Siah Bisheh, also known as Siahbishe, is a 1,040MW pumped storage power plant located on the Chalus River, around 125km north of Tehran in Iran.

Siah Bisheh, also known as Siahbishe, is a 1,040MW pumped storage power plant located on the Chalus River, around 125km north of Tehran in Iran.

By 2012, Iran had roughly 400 power plant units. By the end of 2013, it had a total installed electricity generation capacity of 70,000 MW, which had been increased from 90 MW in 1948, and 7024 MW in 1978. [1][2][3] There are plans to add more than 5,000 MW of generation capacity annually to the.

Product Introduction This energy storage inverter is designed for small and medium-sized energy storage microgrids, offering high efficiency and reliability. It supports photovoltaic integration, features both on-grid and off-grid switching capabilities, and allows for multiple parallel.
