

SolarTech Power Solutions

Jordan solar Panel Solar Energy Company

Overview

Who is Solarity Jordan?

complete information about products. so that you don't miss any news! Solarity Jordan is a distributor and solutions provider of photovoltaic (PV) systems offering a complete assortment of solar modules and inverters.

Is Jordan a solar country?

Jordan lies within the solar belt of the world with average solar radiation ranging between 5 and 7 kilowatt-hour (kWh) per square metre. Decentralized generation from photovoltaic systems in rural and remote villages is currently used for lighting, water pumping and other social services of up to 1000 kW of peak capacity.

What is the solar energy potential in Jordan?

The solar energy potential in Jordan is enormous as it lies within the solar belt of the world with average solar radiation between 4 and 8 kWh/m², which implies a potential of 1400-2300 GWh per year annually.

Why is solar energy important in Jordan?

Electricity demand in Jordan plays a significant role in the high amount of energy consumption to cover the needs of heating, cooling, lighting, etc. For that, the availability of the solar radiation information becomes essential to help in the design and building of the solar energy application.
