## Overview

---

At IMR Batteries, we stock a comprehensive selection of battery wraps, ensuring safe, durable, and high-quality protection for all lithium-ion battery sizes. Shop now and maintain battery integrity with professional-grade wraps!.

At IMR Batteries, we stock a comprehensive selection of battery wraps, ensuring safe, durable, and high-quality protection for all lithium-ion battery sizes. Shop now and maintain battery integrity with professional-grade wraps!.

At IMR Batteries, we provide precision-cut, high-durability PVC battery wraps, available in multiple sizes, thicknesses, and colors. Whether you are replacing wraps for safety or assembling battery packs for professional applications, our high-quality wraps provide superior protection and.

Lithium Battery Pack: 68\*38\*55mm, small volume, light weight, large capacity, environmental protection, no memory effect. Built-in High Quality BMS: Battery has overcharge, over discharge, over current, short circuit, charging, automatic identification and protection circuit. Applicable Scope:.

Check each product page for other buying options. Price and other details may vary based on product size and color. 2pcs 7.4V 3500mAh Lithium Polymer Batteries. Rechargeable Li-Polymer Batteries for Heated Gloves, Socks, and Jackets, Ideal for Skiing, Fishing, and Winter Sports. Female DC Jack.

18650 battery wraps are critical safety components designed to replace worn, torn, or damaged insulation on lithium-ion batteries. A compromised battery wrap exposes the metal casing, increasing the risk of short circuits, overheating, and potential battery failure. Proper rewrapping ensures safe.

The LithiumSafe™ Battery Bag is a fire containment bag designed for spare lithium batteries and portable electronic devices (PED) carrying them. The unique configuration of the Lithium safety bag consists of high temperature insulation & fire resisting materials that are able to withstand the.

7.4 Volt Lithium Ion Battery Pack (8800 mAh) with Protection IC & Leads: Your High-Capacity Power Solution The 7.4 Volt Lithium Ion Battery Pack (8800 mAh) is designed to meet the energy demands of modern electronic devices. With its high capacity, advanced safety features, and convenient leads for.
