# Malta Energy Storage Project Construction Plan

## Overview

---

Will Malta develop a battery energy storage system?

The government has received 16 offers for the development of Malta's first large-scale utility battery energy storage systems, Minister for the Environment, Energy and Public Cleanliness Miriam Dalli told The Malta Independent.

How can Malta improve energy security?

As outlined in Malta's RePower EU chapter in its Recovery Resilience Plan, to further increase local energy security, upgrades of Malta's electrical distribution network facilities are being undertaken through investments in the extension of the grid, distribution services, and battery storage.

What is Interconnect Malta doing?

InterConnect Malta has launched tenders for two large-scale Battery Energy Storage Systems, aiming to enhance renewable energy integration and stabilize Malta's energy supply. Learn more about this significant step towards a sustainable energy future.

How can Malta reduce reliance on fossil fuels?

Malta's goal to reduce reliance on fossil fuel imports is driven by accelerating the deployment of renewable energy sources, implementation of energy efficiency and demand reduction measures, as well as increasing the flexibility of the energy system.

Does Malta have a long-term renovation strategy?

Additionally, Malta is committed to implementing regulatory measures and incentives designed to optimize the generation of renewable energy in the buildings sector, aligning with the Long-Term Renovation Strategy. This approach is further elaborated in Section 3.1.2 of the report.

How can enterprises save energy in Malta?

Malta's enterprises are very diverse, and thus a tailored approach is normally taken when designing initiatives for enterprises so that the measures taken yield the greatest energy savings. A number of initiatives targeting specific enterprise groups have been introduced.
