Mongolia lithium battery station cabinet production

Overview

Will Mongolia have a battery energy storage system?

A planned battery energy storage system for Mongolia will be the largest of its type in the world and provide a blueprint for other developing countries to follow as they decarbonize their power systems. Mongolia's coal-dependent energy sector accounts for about two thirds of Mongolia's greenhouse gas emissions.

Is Mongolia a major player in the lithium sector?

Mongolia set to become a major player in the Lithium Sector. A large number of Lithium battery factories in China. Battery Manufacturing nations Korea, Taiwan and Japan all nearby. The Baavhai Uul Lithium Brine Project covers 80,000+ hectares, highly prospective for Lithium brine and represents one of the largest exploration licences in Mongolia.

What is Urgakh Naran lithium brine project?

The Urgakh Naran Lithium Brine Project covers an area of almost 20,000 hectares of highly prospective lithium terrain, situated in the arid and infrastructure rich region of the South Gobi Desert. This site is located 150km WNW of the Company's flagship Baavhai Uul Lithium Project. Be the first to know. **SUBSCRIBE NOW.**
