Overview

What type of power plugs are used in Morocco?

In Morocco, the power plugs and sockets are of type C and E. The standard voltage is 220 V and the standard frequency is 50 Hz. You will need a power plug adapter if you're traveling from a country with different plug types.

What type of power outlet does Morocco use?

See our product selection criteria and guidelines here. Which power outlets do they use in Morocco?

Morocco uses Type C and Type E power outlets. Type C outlets are one of the most widely-used electrical outlets in Europe, while Type E is common in France as well as Morocco and is compatible with Type C.

What is the standard voltage in Morocco?

The standard voltage in Morocco is 220 V, and the frequency is 50Hz. Compared to 120V and 60Hz in the United States, you'll notice that Morocco's power voltage is higher than the U.S. but carries less frequency. The safest way to manage the differences is to look for a power adapter that converts both voltage and frequencies.

What is the voltage of a wall socket in Morocco?

Both wall sockets appear pushed into the wall compared to the flat-facing outlets in the U.S. The standard voltage in Morocco is 220 V, and the frequency is 50Hz. Compared to 120V and 60Hz in the United States, you'll notice that Morocco's power voltage is higher than the U.S. but carries less frequency.

Do I need a power adapter in Morocco?

You will need an adapter to use your devices, and the most versatile power adapter is a Universal Travel Adapter. It will fit all of your needs in Morocco,

has a built-in fuse protector to safeguard your precious devices, and you can use it for future travels as it will work in 100+ countries! View on Amazon.com →.

How are Morocco's power outlets different from the United States?

Morocco's power outlets are drastically different from those in the United States. You'll have to plan to ensure your electronics are not only charged and usable but that they don't short-circuit in Morocco's power outlets.
