

SolarTech Power Solutions

Myanmar Communications solar Base Station 7MWh

Overview

Why is Myanmar launching a solar power initiative?

Myanmar's military government has launched a solar power initiative to address the nation's energy crisis, hoping to attract foreign investment and boost electricity generation. This effort faces challenges due to the ongoing economic downturn and political instability following the 2021 coup.

Is solar energy a viable solution to Myanmar's energy crisis?

Myanmar's energy crisis has been exacerbated by the military's mismanagement of the sector. Despite increasing the number of power plants, the junta struggles to meet the country's energy demands. Many of these plants rely on imported LNG, which is costly and unsustainable. Solar energy is seen as a more viable and long-term solution.

Is solar energy a viable option for Myanmar's off-grid area?

For the off-grid area, Myanmar has mainly emphasis on solar home system and mini-grid system to be sustainable, affordable and environmental friendly. This paper aims to describe the high potential of solar energy, current situation of solar energy implementations and the important of Renewable Energy of Myanmar respectively.
