Namibia New Energy Storage

Overview

Let's cut to the chase: In December 2023, Windhoek made history by launching Namibia's first grid-scale energy storage system. This 54MWh project in Erongo Region isn't just a battery installation - it's a game-changer for a country where 70% of electricity was imported.

Let's cut to the chase: In December 2023, Windhoek made history by launching Namibia's first grid-scale energy storage system. This 54MWh project in Erongo Region isn't just a battery installation - it's a game-changer for a country where 70% of electricity was imported.

NamPower, Namibia's state-owned power utility, has signed a contract with a Chinese joint venture to build the first utility-scale battery energy storage system (BESS) in the country and the Southern African region. The contract was awarded to Shandong Electrical, Engineering & Equipment Group Co.

The country has taken a significant leap toward securing a stable and renewable energy future with the arrival of the first major equipment for the 51-megawatt (MW) Omburu Battery Energy Storage System (BESS) project. This groundbreaking initiative marks the country's first utility-scale battery.

Namibia's just made a game-changing move. In December 2023, the country signed contracts for its first utility-scale battery energy storage system (BESS) - a 54MW/54MWh project at Omburu Substation [1] [2]. But why should the world care about this project in a nation of 2.5 million people?

Wait, no.

Let's cut to the chase: In December 2023, Windhoek made history by launching Namibia's first grid-scale energy storage system. This 54MWh project in Erongo Region isn't just a battery installation - it's a game-changer for a country where 70% of electricity was imported pre-2023 [1]. Imagine a.

State-owned Namibia Power Corporation (NamPower) recently signed an engineering, procurement and construction (EPC) contract for a 54 MW/54 MWh storage . The total storage capacity of dams (including Neckartal) will be

1.57 km³. At present, there is only one small hydro plant (0.5 MW) in.
