

SolarTech Power Solutions

New Zealand emergency energy storage power supply manufacturer

Overview

Which energy company is building New Zealand's first grid-connected battery energy storage system?

Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakākā on North Island. Paris, January 10, 2023 – Saft, a subsidiary of TotalEnergies, has been awarded a major contract by Meridian Energy to construct New Zealand's first large-scale grid-connected BESS.

Who is launching New Zealand's largest battery energy storage system?

WEL Networks and Infratec are proud to announce the launch of New Zealand's largest Battery Energy Storage System (BESS) with commissioning underway.

Does Saft offer a battery energy storage system for New Zealand?

Saft executive vice president for energy storage solutions Hervé Amossé adds: "Saft is proud to provide this first Battery Energy Storage System for New Zealand in the Waikato. We are excited to start this operation phase of the battery for which we will continue to support our partners.

Is New Zealand a key market for storage solutions?

Power Electronics NZ Ltd operations director Brent Sheridan sees New Zealand as a key market for storage solutions with future generation growth primarily being led by solar and wind technology. "Power Electronics are proud to be the suppliers of inverters for this project.

What is a battery energy storage system?

A battery energy storage system (BESS) is a technology that allows for the storage of electrical energy in batteries, which can then be used to power electrical loads. BESS can be used for a variety of applications, including grid stabilisation, load shifting, backup power, and integration with renewable

energy sources such as solar and wind power.

Who is delivering a Bess system in NZ?

Saft, a subsidiary of TotalEnergies, is delivering this system, and Meridian anticipates that the BESS will generate annual revenues of up to NZ\$59.3 million. Transpower, a state-owned transmission company, is noted to have played a key role in planning, construction and commissioning.
