

SolarTech Power Solutions

New Zealand lithium battery production company

**Low Voltage
Lithium Battery**

6000+ Cycle Life

Overview

We specialize in designing and assembling high-quality LiFePO4 batteries right here in sunny Motueka. Our batteries are perfect for off-grid living, tiny homes, caravans, campers, and baches. Discover reliable, New Zealand made energy solutions that you can trust. Why Choose Our Batteries?

Where to buy a lithium battery in New Zealand?

Cell-Supply NZ started in 2022 and is based in Tauranga. It's one of New Zealand's top lithium battery shops. With the goal of "bringing cells to those who need them," they offer lithium-ion cells like 18350, 18650, and 21700. These cells have high energy density, low self-discharge, and a wide operating temperature range.

What kind of batteries are used in New Zealand?

Century lead-acid batteries are specially designed for New Zealand conditions. They come in two types: flooded and AGM, making them suitable for 4WDs, RVs, golf carts, wheelchairs, mobility scooters, and marine systems. Century lithium deep cycle batteries use LiFePO4 (lithium iron phosphate) technology.

What makes NZ a good battery company?

NZ-Built Quality: Expertly designed and assembled locally for superior reliability and performance. Advanced Technology: Utilizing the latest in lithium cell and BMS technology. Affordable Energy: Delivering high energy density solutions at competitive prices. Custom Solutions: Tailored battery systems to meet your specific needs.

Who is Juice Lithium Battery?

Juice Lithium Battery has established itself as a trusted name in the realm of lithium batteries in New Zealand. Leveraging advanced lithium-ion technology, Juice Lithium Battery specializes in delivering high-performance batteries for automotive, marine, and recreational purposes.

Does New Zealand have lithium resources?

New Zealand has lithium resources, but they're relatively limited. Large-scale lithium mining hasn't started yet. [Related Article.](#)

What is a lithium ion battery?

Lithium-Ion batteries (a.k.a., Li-Ion batteries) are the most popular lithium battery designs. In particular, there is a growing demand for Lithium batteries featuring 18650 cells, which have found their way into diverse consumer products—from cell phones and laptops to power tools, vehicles, high-powered LED torches, and doorbells.
