# New Zealand lithium energy storage power supply wholesale price

## Overview

---

Where can I buy a lithium battery in New Zealand?

Cell-Supply NZ is the leading lithium battery store in New Zealand, offering a wide range of genuine, brand-name, high-quality lithium batteries. Batteries like the 18350, 18650, and 21700, are all part of our varied range. We take pride in offering the most up-to-date and newest supplies of both cells and chargers.

Does New Zealand have lithium resources?

New Zealand has lithium resources, but they're relatively limited. Large-scale lithium mining hasn't started yet. [Related Article.](#)

What makes NZ a good battery company?

**NZ-Built Quality:** Expertly designed and assembled locally for superior reliability and performance. **Advanced Technology:** Utilizing the latest in lithium cell and BMS technology. **Affordable Energy:** Delivering high energy density solutions at competitive prices. **Custom Solutions:** Tailored battery systems to meet your specific needs.

What kind of batteries are used in New Zealand?

Century lead-acid batteries are specially designed for New Zealand conditions. They come in two types: flooded and AGM, making them suitable for 4WDs, RVs, golf carts, wheelchairs, mobility scooters, and marine systems. Century lithium deep cycle batteries use LiFePO<sub>4</sub> (lithium iron phosphate) technology.

What is a lithium ion battery used for?

Li-ion batteries are used in a wide range of devices, from smartphones and laptops to electric vehicles and grid-scale energy storage systems. In New Zealand, lithium-ion battery technology has become particularly prevalent, with lithium-ion battery NZ companies offering sleek and powerful energy storage solutions for homes and businesses.

Why is the lithium-ion market so scarce?

The current lithium-ion market is becoming increasingly scarce as demand outpaces supply. Demand for lithium-ion batteries has soared due to the popularity of electric vehicles, leading to a surge in fake cells and some suppliers overstating capacities and outputs. No matter what, we will never compromise on the quality of our batteries.
