Overview

What are the best portable power stations in New Zealand?

Grid Escape's ATB & Pecron Portable Power Stations range are designed to withstand New Zealand's harsh elements. These compact yet robust units are perfect for any scenario, whether exploring the great outdoors, powering through work at a remote construction site, or staying prepared during an unexpected power outage.

How much does a home battery cost in New Zealand?

Battery prices are coming down, but the upfront cost is still significant. On average, home batteries in New Zealand range from \$800 to \$1,200 per kilowatt-hour (kWh) of storage, depending on the brand and installation requirements.

Where can I buy a battery in NZ?

If you have any questions, please don't hesitate to reach out to our customer service team. For battery specialists in NZ, choose Simpower. We have a wide range of batteries, chargers, analysers, and more. Shop from our online battery store today!.

Why should I buy a portable power station?

If you're going camping, off the grid or preparing for an emergency, our portable power station provides enough power to keep your appliances or devices operating.

How do I order a battery in New Zealand?

Order your battery from your desk and it will be delivered to your door - free to main centres in New Zealand. Be in complete control of the ordering process while you're 'one on one' with a battery specialist. Pay by Credit Card, Cheque or internet banking - your choice.
