

SolarTech Power Solutions

New Zealand solar water pump inverter drip irrigation

Overview

Can a solar irrigation system integrate with a water pump?

Our solar system easily integrates with most existing water pumps so all you need to change is the power source. Our solar irrigation systems run on 3-phase power - the same power you are likely already using in your agriculture irrigation system making it easy to switch.

Should I invest in a solar water pump system?

If you use an irrigation system for crops, grass or livestock feeding and you are interested in making your farm more eco-friendly and efficient, talk to NZ Plant Hire about investing in a solar water pump system. Switching to solar power for your farm irrigation pump systems has plenty of benefits for you and the environment including:

Can a Lorentz solar pump help a New Zealand farm?

Remote water sources will never again be a problem for New Zealand farms. With a Lorentz solar pump, you can draw water from anywhere and any source, or work with an irrigation system you already have and operate. With efficient water supply and management in place, good land is used to its full capacity.

What is a solar-powered water pumping system?

Each solar-powered water pumping system is made up of a Lorentz pump end, brushless, 3ph pump motor and a controller. This modular concept keeps all the electronics above ground providing ease of access for simple servicing which in turn makes these very economical to own.

Are Grundfos solar-powered pumps suitable for remote water supply in New Zealand?

IRRIGATION | PUMPING | FILTRATION | WATER TREATMENT Grundfos solar-powered pumps are suitable for remote water supply, off-grid living, stock

watering, and irrigation in New Zealand.

What are the best water pumps NZ has to offer?

The best water pumps NZ has to offer makes use of solar power systems. Increase the supply of water and benefit from the abundance of clean, alternative energy with Lorentz pumps. If you have an excellent water source within your farm that's beyond the reach of any power source, it might well be worth a look.
