New solar energy system in Sao Tome and Principe

Overview

The Santo Amaro solar park is a joint initiative of the Government, UNDP, UNIDO, and the AfDB. The turnkey 1.7 MWp facility was developed in two phases: a 0.5 MWp plant financed by UNDP, completed and commissioned in late 2022, and a 1.2 MWp expansion financed by AfDB.

The Santo Amaro solar park is a joint initiative of the Government, UNDP, UNIDO, and the AfDB. The turnkey 1.7 MWp facility was developed in two phases: a 0.5 MWp plant financed by UNDP, completed and commissioned in late 2022, and a 1.2 MWp expansion financed by AfDB.

São Tomé and Príncipe takes another concrete step towards the energy transition with the inauguration of the 1.2 megawatt photovoltaic solar park, integrated in the Santo Amaro power plant, which was attended by several individuals, namely the HE Prime-Minister of São Tomé and Príncipe, Dr. Américo.

With the inauguration of the Santo Amaro photovoltaic solar park with a total electric capacity of 1.7-megawatt, the Government of São Tomé and Príncipe has taken another concrete step toward achieving its national renewable energy targets and advancing the implementation of its NDC. The ceremony.

Last week, São Tomé and Príncipe (STP) officially joined AMP and hosted a two-day project launch workshop, becoming one of the newest national projects under active implementation. Although around 70% of rural areas in STP are electrified, many communities remain off-grid or face unreliable supply.

eatest opportunities to São Tomé and Príncipe. On one hand, global climate change poses a direct threat to our way of life; on the other, continued reliance on outdated fossil energy sources, uch as imported diesel, is no longer sustainable. At present, the energy expenditures of São Tomé and.

The Government of Sao Tome and Principe has launched a tender to build a 1.5 MWp solar photovoltaic plant in the town of Santo Amaro in the Lobata District. Where will solar power plants be installed in so Tomé?

The company will collaborate with the public utility Power and Water Company (EMAE) to.

We participated in an initiative of the Government of Sao Tome and Principe to improve the reliability of electricity supply and reduce energy costs in public buildings through the installation of solar photovoltaic systems. As part of this project, we are working to strengthen the country's.
