

SolarTech Power Solutions

North Asia PV inverter demand

Overview

The utility on-grid PV inverter market is projected to grow at a CAGR of 7.7% from 2025 to 2035, driven by increasing solar farm installations, demand for grid stability, and advancements in inverter technology for higher efficiency. What is the outlook for the Asia-Pacific solar inverter market?

The Asia-Pacific solar inverter market is expected to register a CAGR of around 2.5% during the forecast period. The market did not witness any significant negative impact of COVID-19 in 2020. Presently, the market has reached pre-pandemic levels.

What are the trends in the PV inverter market?

PV Inverter Market Trends Rising demand for storage along with PV systems: The growing demand for battery storage solutions in conjunction with photovoltaic or solar systems is having a substantive impact on the PV Inverter Market.

Will Asia-Pacific solar inverter market grow by 2027?

Asia-Pacific Solar Inverter Market is poised to grow at a CAGR of 5% by 2027. Product innovation and the introduction of the latest technologies in solar PV inverters are creating opportunities for the market.

Why is the global solar (PV) inverter market expanding?

The global solar (PV) inverter market is expanding due to rapid expansion of the renewable energy sector. The growing demand and need for green and clean energy are driving the growth and development of global solar (PV) inverter market over the projected period.

What drives the PV inverter market?

The PV inverter market is poised to grow significantly over the next five years, driven by declining prices of solar panels and supportive government policies and regulations around the world. Major drivers for the market include

countries mandating renewable energy generation targets and incentives for rooftop solar installations.

Who are the key players in the Asia-Pacific solar inverter market?

The Asia-Pacific solar inverter market is fragmented. Some of the key players in the market (in no particular order) include Fimer SpA, Schneider Electric SE, Siemens AG, Mitsubishi Electric Corporation, and Omron Corporation.
