

SolarTech Power Solutions

One-to-four outdoor solar integrated machine

Overview

The 6000XP is a 120V/240V 6000 Watt Off-grid inverter. It is a perfect match for a small home or cabin or for powering critical loads in a grid-down scenario.

What is an EG4 6000xp all-in-one off-grid inverter?

The EG4 6000XP All-In-One Off-Grid Inverter is a 48V split-phase inverter/charger, providing powerful and efficient off-grid energy solutions. With an 8kW PV input and 6kW output, it can charge your battery bank while powering devices.

What is a transformerless solar inverter?

This transformerless, high-frequency inverter offers split-phase 120/240V output, operating off-grid or with grid input for supplemental charging. Its dual MPPTs support 8kW of solar input with a high 480VDC, minimizing cable size and setup complexity.

How much power does a solar power system have?

With an 8kW PV input and 6kW output, it can charge your battery bank while powering devices. It's highly scalable, allowing up to 16 units to be paralleled for a combined 96kW output, making it versatile for both residential and commercial applications.
