An Outdoor DC UPS Backup Power is the perfect solution for continuous power, day or night for surveillance cameras and wireless equipment. Get up to 10 days of backup power. [Click to Download UPS Spec Sheet.](#)

What are outdoor UPS?

Outdoor UPS are rugged back-up power supply systems that are designed to weather the elements in harsh outside locations.

What is an outdoor UPS power system?

Encased in a durable IP68 housing, it guarantees durability even in harsh weather conditions. With a wide input voltage range (100 to 240V AC) and operating temperatures from -4°F to 140°F, the Outdoor UPS Power System ensures consistent performance and system reliability in inclement outdoor environments.

How does a DC UPS backup power system work?

[Click to Download UPS Spec Sheet](#) The Outdoor DC UPS Backup Power System utilizes a charge controller to convert high voltage AC power into DC power, which is then stored in the batteries. The power assembly then draws power from the battery storage, providing the appropriate output voltage and type.

How long does a DC UPS backup power last?

Provides at least 24 hours and up to 10 days of backup power when grid-tied power goes out. Provides power to equipment on light poles when automatically turned off by a timer or photocell. Easy installation with plug and play hookups and universal pole mount. [Who Can Benefit From an](#)
