Outdoor Power Summer

Overview

What is Summer Power?

Summer Power is a flexible full-day enrichment program offered by the YMCA of the North. It focuses on quality, small group, age-appropriate activities. Kids stay active with swimming, group games, and weekly field trips. We provide a healthy living experience by educating on healthy food choices and the right balance of physical activity. Registration for the 2023 Summer Program is now open.

Shop Snow Blowers, Lawn & Gardens Tractors, Zero Turns, and so much more! Visit our online shop PowerandParts.com Shop Now! Looking to save money on a New Machine.

What is the best outdoor power strip?

My top pick, the APS IPX6 9-in-1 Outdoor Power Strip, is waterproof, durable, and includes a mixture of three-prong outlets and USB plugs. See which other models I recommend below. The outdoor power strips below are the best of the bunch. My selections range from small three-outlet power strips up to large capacity 10-outlet models.

Are outdoor power strips weather resistant?

Outdoor power strips come in a variety of sizes, from small three-outlet models up to large 10-outlet beasts. Unlike indoor models, these rugged, weather-resistant power strips can endure extreme temperatures and even downpours. Understanding what weather conditions an outdoor power strip is rated to handle is key to purchasing the right one.

Are eigso power strips weatherproof?

EIGSO's weatherproof outdoor power strip is one of the most affordable models that still offers a high degree of weather resistance. With its IPX6 rating, it can withstand continuous rainfall thanks to drainage holes on the back of the power strip that allow water that finds its way into the sockets to drain out.

Are outdoor power strips safe?

Outdoor power strips have safety features to prevent them from shorting out due to overloading. Some outdoor power strips also function as surge protectors and have built-in fuses that cut off the flow of current when it exceeds the maximum wattage for a standard 15-amp outlet, which is 1,875 watts.
