Overview

What will PNG Power do for Papua New Guinea?

PNG Power's Managing Director Flagon Bekker has outlined the state-owned utility's plans to improve the stability and reliability of power supply in Papua New Guinea during a special Business Advantage PNG briefing. He elaborated on what will be the largest ever investment in PNG infrastructure - the nation-building Ramu 2 hydropower project.

Does Papua New Guinea have a 'small power system'?

Papua New Guinea has set a target for 70% of its households with access to electricity by 2030 and the 'Small Power Systems' sets the foundation to achieving this target. The United Nations Sustainable Development Goal 7 (SDG 7) calls for "affordable, reliable, sustainable and modern energy for all" by 2030.

Who is Papua New Guinea electrical company?

The company concentrated its business in the capital, supplying electrical goods to maintenance contractors, retailers and even private individuals. Products are well-outsourced and imported into Papua New Guinea from carefully selected and reputable overseas suppliers only.
