Portable Power Screen

Overview

What is a portable monitor?

A portable monitor you can use for both gaming or remote work, with 144 Hz refresh rate, USB-Type C, USB, and HDMI connectivity. This portable monitor can also be used in horizontal or vertical mode. A portable monitor with a touchscreen, stylus, and adjustable kickstand.

What is the biggest portable monitor?

Equipped with an 18.5-inch display panel, this portable monitor from VisionOwl is the biggest on this list, legitimately blurring the lines between a compact and a desktop monitor. That said, unlike its standard-size counterparts, the product is easy to move around and fits into a (bigger) laptop backpack.

What is a good portable monitor?

The VG1655 is a good portable monitor for business or personal use—email, web surfing, or creating and editing office-type documents—for people on a budget. The Dell Pro 14 Plus Portable Monitor (P1425) is an excellent choice as a secondary productivity display, particularly for workers whose tasks include preparing art for the web.

Which portable monitors are available in PC labs?

We currently have three portable monitors in PC Labs for evaluation, from Aura Displays, HP, and AOC. A touch-enabled portable monitor with a sturdy hinged stand, Lenovo's ThinkVision M14t packs a high-resolution IPS panel with great contrast and excellent color coverage.

What should I look for in a portable monitor?

This is the key specs I always look for in a portable monitor and what I recommend checking when choosing the model that's right for your needs. For most people, one sized between 14in and 16in (like most laptops) offer the

best balance for portability. But portable displays come in a range of sizes, so there's no right or wrong here.

What is a high-resolution portable monitor?

High-resolution portable monitors are best for desktop use or gaming with a console or a powerful computer, instead of on the go. A screen with an industry-standard refresh rate of 60 Hz is all you'll need for work and viewing content on a portable monitor.
