

## SolarTech Power Solutions

# Portable Power Storage in North Macedonia

## Overview

---

Here are some key points:  
Cost: Lithium-ion batteries for storage are averaging €450–€600 per kWh<sup>1</sup>.  
Investments: The country is attracting investments in battery factories, with projects worth up to EUR 360 million underway<sup>2</sup>.  
Hybrid Solutions: There are initiatives combining lithium-ion.

North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski. In addition, Hydrogen Utopia intends to build a plant for the production of hydrogen from waste plastics. Minister of.

That's North Macedonia for you – where ancient history meets tomorrow's power grids. With renewables contributing 18% of its electricity in 2024 [1], the country is racing to solve the ultimate puzzle: how to keep the lights on when the sun isn't shining and the wind stops blowing. Let's unpack.

In recent years, North Macedonia has seen growing demand for reliable power solutions across industries like renewable energy integration, emergency backup systems, and mobile power supply. With increasing focus on portable energy storage power transfer, businesses and communities seek flexible.

pv Europe and industry association Solar Macedonia are working to advance the solar future of North Macedonia. With 900 MW of installed capacity, North Macedonia's solar sector is scaling rapidly, while battery storage is gaining momentum. Find out more in our daily focus, 15–18 September. North.
