

## SolarTech Power Solutions

# Pro Power Energy Storage

## Overview

---

Why is energy storage important?

Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid. Additionally, these projects will provide meaningful benefits to Disadvantaged Communities and Low-to-Moderate Income New Yorkers. Energy storage is essential to a resilient grid and clean energy system.

When will energy storage projects be regulated?

The storage industry anticipates this to be passed into law in 2022, and that it will apply to projects that achieved commercial operation after December 31, 2020, reducing the risks and uncertainty in energy storage project economics.

Should energy storage be included in the electric grid?

Integrating storage in the electric grid, especially in areas with high energy demand, will allow clean energy to be available when and where it is most needed. As New York continues to invest and build a cleaner grid, energy storage will allow us to use existing resources more efficiently and phase out the dirtiest power plants.

Are EnergySage storage installers pre-screened?

At EnergySage, we care about connecting shoppers to high-quality companies. As such, any storage installers we list above are active on the EnergySage Marketplace in New York and pre-screened by our team. What does it mean to be “pre-screened”?

We evaluate every storage installer to ensure that they’ll provide quality service to EnergySage users.

Can a project be eligible for a NYSERDA bulk energy storage program?

5Participation in the utility procurements precludes a Project’s eligibility for

the NYSERDA Bulk Energy Storage Program and NYSERDA's Request for Proposals to procure Index Storage credits (ISCRFP25-1) New York State Electric & Gas Corporation Rochester Gas and Electric Corporation 2025 Bulk Power Energy Storage Request for Proposals.

What are the requirements for a storage project?

Storage Projects must meet all Building, Fire Department, and any other government agency design and safety requirements as required and applicable. See Appendix C4 for additional details. 19NYISO and local utility distribution studies as required per interconnection location and associated requirements.
