

SolarTech Power Solutions

Rack-mounted inverter prices in Pakistan

Application scenarios of energy storage battery products

Overview

How much does a solar inverter cost in Pakistan?

On average, solar inverter prices can range from PKR 60000 to 1800000 for residential and commercial solar systems. Solar inverters are an important component of solar energy systems in Pakistan, converting DC electricity from solar panels into usable AC electricity.

Are Canadian Solar inverters a good choice in Pakistan?

In 2025, Canadian Solar inverters are increasingly used in hybrid and on-grid solar systems across Pakistan due to their long-term performance and value for money. With local distributors and warranty support available, this brand has become a trusted name among Pakistani solar energy users. Note: Prices vary depending on:

Why should you choose a solar inverter in Pakistan?

As Pakistan embraces solar power, reliable and efficient inverters play a crucial role in shaping its sustainable energy future. Considering factors like efficiency, warranty, and after-sales support is essential when choosing a solar inverter to ensure optimal performance and reliability.

How much does a solar inverter cost in PKR?

Prices depend on brand, capacity, and features. A 3kW inverter costs PKR 150,000–220,000, while 5kW models range from PKR 300,000–500,000. Hybrid systems (solar + grid) are pricier but offer backup during cloudy days. Buy during winter (lower demand). Compare prices online before visiting shops. Opt for inverters with local service centers.

Where can I find the best solar inverter?

On Solar App, we offer outstanding prices on top-of-the-line solar inverters. Featuring leading brands such as Solis, Huawei, Goodwe, and more, you can find the perfect solution for your energy needs. See our available options

below and browse the perfect inverter for your needs.
