Seychelles Government Communications solar Base Station Relocation

Overview

What does the Seychelles government do?

The Seychelles Government is committed to providing adequate, reliable and affordable energy to meet future energy consumption needs and to underpin strong economic growth through consumable energy initiatives. The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar.

Can We provide relocation to Seychelles services?

Answer: Yes, we can provide relocation to Seychelles services. Resident permit is the granting of residence in Seychelles for duration of 5 years renewable. The cost is 12,500 USD (150,000 Seychelles rupees) for each parent. For children under 18 years the cost is 2100 USD per child. Exchange rate for 1 USD is 12 rupees.

What is the Seychelles energy plan?

It targets an ambitious transformation and diversification of the Seychelles' currently 85 MW diesel-dominated electricity generation capacity (on Mahé, Praslin and La Digue), aiming at replacing diesel generators with domestic and international public and private financing.
