

SolarTech Power Solutions

Site energy battery cabinet processing equipment manufacturer

Overview

What is Delta Battery energy storage system (BESS)?

Delta's battery energy storage system (BESS) utilizes LFP battery cells and features high energy density, advanced battery management, multi-level safety protection, and a modular design. Available in both cabinet and container options, it provides a complete and reliable energy solution.

What is a medium series battery energy storage system?

The medium series battery energy storage system is designed with versatility and scalability in mind. Featuring MPPT technology and leading-edge conversion equipment, these BESS systems are built to stand out thanks to their longevity, reliability, and customisability.

Which energy storage solutions does Delta offer?

Delta's energy storage solutions include the All-in-One series, which integrates batteries, transformers, control systems, and switchgear into cabinet or container solutions for grid and C&I applications. The streamlined design reduces on-site construction time and complexity, while offering flexibility for future expansion.

What are solar battery equipment cabinets?

The solar battery equipment cabinets are made specifically for the solar industry with an aim to make installations safer and easier for consumers. Tailored to fit your specific needs, available in different heights and depths. Different materials options: Metal steel, aluminum or stainless steel.

What is a self-designed battery management system (BMS)?

Self-designed Battery Management System (BMS) protects the cell from extreme temperatures. Modular, sleek design allows neat stacking inside the AZE company solar equipment enclosures. Compatible with most of there hybrid inverters available on the market.

What is a battery cabinet made of?

The cabinets are made of galvanized steel or aluminium, making them easy to position and providing a long service life. A slide-in racking system allows for easy installation of 19" rackmount style battery modules along with rain protected vents on both sides and on top for passive ventilation.
